

# CHI®

## Professional Clothing Iron

Powerful Steam  
Precise Temperature

- **Introducing CHI® Irons:** The only irons developed using the same titanium-infused ceramic soleplate technology that powers the flagship CHI® G2 Flat Iron for hair. This unique soleplate provides the strength of stainless steel paired with the smooth glide of a nonstick iron. The CHI® Professional Clothing Iron is scratch resistant, heats quickly and is comprised of 300 steam holes for superior performance.
- **From Hair to Wear™:** Designed with a sleek look and engineered for high performance, the CHI® line is the perfect balance of style and function. Achieve the same trusted results for your wardrobe as you expect for your hair. Flawlessly styled hair makes your whole appearance fresh and put together. Translate that feeling to your entire outfit for a polished look from head to toe.
- **Modern Style with Premium Materials:** The titanium-infused ceramic soleplate is ultra-strong, abrasion resistant and retains heat longer with nonstick and non-static finishes resulting in smooth ironing every time.

### With CHI® Flat Iron Technology

Titanium-Infused Ceramic Soleplate  
Over 300 Steam Holes  
for Superior Performance

### Details
