

CHI®

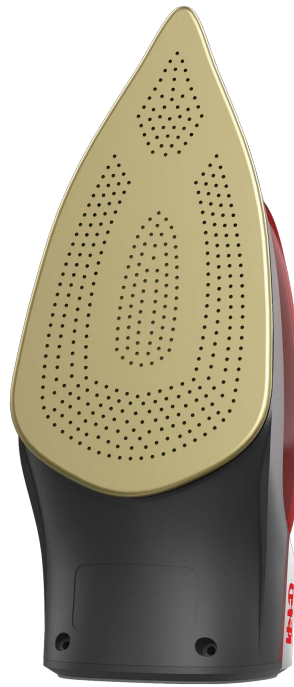

Electronic Retractable Iron

Powerful Steam
Precise Temperature

- **Introducing CHI® Irons:** The only irons developed using the same titanium-infused ceramic soleplate technology that powers the flagship CHI® G2 Flat Iron for hair. This unique soleplate provides the strength of stainless steel paired with the smooth glide of a nonstick iron. The CHI® Electronic Retractable Iron is scratch resistant, heats quickly and is comprised of 400 steam holes for superior performance.
- **From Hair to Wear:** Designed with a sleek look and engineered for high performance, the CHI® line is the perfect balance of style and function. Achieve the same trusted results for your wardrobe as you expect for your hair. Flawlessly styled hair makes your whole appearance fresh and put together. Translate that feeling to your entire outfit for a polished look from head to toe.
- **Modern Style with Premium Materials:** The titanium-infused ceramic soleplate is ultra-strong, abrasion resistant and retains heat longer with non-stick and nonstatic finishes resulting in smooth ironing every time.

With CHI® Flat Iron Technology

Titanium-Infused Ceramic Soleplate
Over 400 Steam Holes
for Superior Performance

Details

CHI® Electronic Retractable Iron (13102)
MSRP: \$99.99 Available: March 2017

- **Electronic Iron Features:** In addition to the CHI® soleplate technology, the CHI® Electronic Retractable Iron features an electronic temperature display that illuminates your selected fabric setting ensuring you use the optimal setting for any garment. The front display opens with ease to provide access to a large water fill opening. The iron is equipped with a sleek handle including textured comfort grips, an easy to reach adjustable temperature lever, matte chrome accents and a retractable cord for easy use and storage.
